WAITING FOR THE SPRING.

As breezes stir the morning,
A silence reigns in air;
Steel blue the heavens above me,
Moveless the tress and bare;
Yet unto me the stillness
This burden seemed to bring—
'Patience! the earth is waiting,
Waiting for the Spring.'

Strong ash and sturdy chestnut,
Rough oak and poplar high,
Stretch out their sapless branches
Against the wintry sky.
Even the guilty aspen
Hath ceased her quivering,
As though she too were waiting,
Waiting for the Spring.

I strain mine ears to listen,
If haply where I stand
But one stray note of music
May sound in all the land.
'Why art thou mute, O blackbird?
O thrush, why dost not sing?'
Ah, surely they are waiting,
Waiting for the Spring.

Oh heart! thy days are darksome;
Oh hearts! thy nights are drear;
But soon shall streams of sunshine
Proclaim the turning year.
Soon shall the trees be leafy,
Soon every bird shall sing;
Like them be silent, waiting,
Waiting for the Spring.

CO-OPERATIVE SOCIETIES IN ENGLAND.

A very interesting statistical paper, which has recently made its appearance in England, gives the annual return, and contains the accounts, for the year 1866, of the industrial and provident societies established in that country and registered in accordance with an Act of Parliament passed in the year 1863. Though small co-operative stores had previously existed in the manufacturing districts, the first instance of co-operating trading on a scale of any importance was the establishment, more than twenty years ago, in Lancastershire, of the Rochdale Equitable Pioneers, when a number of workingmen subscribed a sufficient sum of money to start a store in which the necessaries of life could be purchased at a little in advance of the wholesale cost. Their primary object was the supply of their own requirements, but their doors were open to all who chose to purchase at ther counter; and as they went to the wholesale dealers, money in hand, for their supplies, they were enabled to offer to the public, greater advantages than could be obtained elsewhere. It is no cause for wonder that their trade was rapidly increased, and that, while their own wants were provided for with articles at a cheap rate, they conferred a great benefit upon such of their neighbors as, though not united with them in the enterprise, were ready to reap its advantages. As the association was open to all operatives who felt inclined to invest their earnings in it, the number of members was speedily augmented, so much so that in the past year it counted over 5,000, while the cash received for groceries and provisions during 1866 amountee to not less $981,170. It is worthy of remark that all the transactions of the association are for cash—it neither takes nor gives credit in its purchases and sales. Nevertheless a small portion of its capital is composed of loans made to it by persons who derive great advantage from the investment. The share capital of the association at the end of the year was $346,535, the loan capital was $1,610, and the value of its assets and property $393,890. The expenses for the year $48,610, and the year's profits $125,780. It paid $14,250 for interest on shares, $102,370 for dividend on purchases, $2,685 for educational purposes. From these figures it will be seen that a fair business profit is placed upon the goods sold, and that at the end of the year, after deducting the expenses and interest on capital, the net profit is divided among the purchasers, in proportion to the amount they expended at the store during the year. The interest paid upon the share capital appears to be about 4 per cent., and the average profit upon goods sold about 20 per cent.; but considerably more than half the latter was returned to the purchasers in the form of dividends.

Since the Rochdale Equitable Pioneers led the way, co-operative societies have so multiplied in England that, at the close of the past year, the number whose rules have been certified by Mr. Tidd Pratt, the Government official under whose charge those institutions are placed, was 599. The return to which we have referred gives the accounts of 417 carrying on business as grocers, dealers in provisions and dry goods, and as shoemakers. At the close of 1865 these societies had 158,586 members; their share capital amounted to $3,806,565, and their loan capital was $563,665. They paid $15,315,440 for goods bought during the year, and received $16,869,185 for goods and merchandise sold during the same period. They state their profits realized within the year to have been $1,396,130, out of which they paid dividends on the shares and dividends on purchases made from the societies, and provided for reserve and depreciation funds. At the end of the year the value of their assets and property was $5,528,425, the money in hand $584,615, and the trade liabilities $1,367,400. Ninety of the associations in the list are the Yorkshire and about one hundred in Lancashire. The Rochdale Pioneers stand at the head, trading during the year to the amount of nearly $1,000,000 Two or three of the co-operative socies in the north of England sold goods in the year to the amount of more than $500,000.

AN INTERESTING LEGAL QUESTION.—The Supreme Court of Missouri, now in session at Jefferson City, is to decide whether the game of 'pool,' so well known to billiard players, is a game of chance or science. The case comes up on a writ of error. The error assigned is that the Court refused to instruct the jury that if it found, from the evidence, the game of pool to be a game of science, and not of chance, it would return a verdict of 'not guilty.' It is held by the plaintiffs in error that skill at the game depends upon accurate mathematical calculations, so much as to take it out of the category of the games of chance.

THE EXHIBITION.

An orchestra composition was executed by Messrs. Austin, Montplaisir and Glaescock, and the curtain arose upon Lover's great dramatized masterpiece, "Handy Andy." Now, this play is of Irish nationality, if Ireland may be supposed to have the papers necessary to establish the claim in full, in the top of its hat. Irish as Arrah-na-Pogue and a fine companion for that swate craythur. Intensely Irish, and everything Irish is in itself intense. So, the play presents scenes of Irish or intense stupidity, love, jollity, rascality and maternal devotion, and, in the end, to intense or Irish raptures of lovers, made happy, etc., together with the little Hibernian matter or manner of one of Lover's mothers restoring to her bosom a long unclaimed and probably-never-would-have-been-called-for intensely stupid son (supposed by some writers to be Lover himself) who was pronounced a Duke without ablution or purgation, and expresses his joy (engendered probably of gratitude by the particularized omissions rather than by elevation to the peerage) by a declaration of intention to purchase "two gowld watches." Which Duking of Andy (a great joke on the nobility) constitutes the swallowing-up-point of interest of the play. But which is remarkably funny throughout, done in strange tongue, the most musical and easily acquired of tongues, and just the thing for a party of rollicking Amateurs.

Nothing could exceed the Irishness of manner in which the troupe performed it. So good and eminently correct were their make-ups, attitudes and general carriage, so rich and universal the gush of Irish brogue that gazing upon these well delineated scenes of Irish life, it required very little effort to fancy ourself in the heart of the Emerald Isle.

Scripture's Handy Andy was very good. He is a performer of merit and his efforts to amuse his fellow-townsmen always meet applause, at half-way. In the scene in which Andy shoots Mr. Dawson with the soda the merriment was loud. In the scene in which he breaks in his pocket the bottle containing the cook's hair oil it was uproarous, and in the scene which comprises his preparatory strengthening of the vital frame for the removal of Mr. Murphy, the drunken man of the play, and final successful accomplishment of the feat, it was wild and prolonged. Scripture's Handy is good for a laugh. And so, is the Squire Egan of the piece, very good for a laugh. Also, Squire O'Grady quite represents an O'Grady with the gout. Mr. Murphy's grasshopper posturings amusingly enough reflect the quaint devices which might be resorted to by a drunken man trying to rise. Dick Dawson evidenced the best stage voice of the troupe; Mr Furlong the slimmest legs; Mr. Simon the best brogue. Ed. O'Connor was as attentive and gallant as the blooming and beautiful Fanny Dawson of the occasion could seasonably demand. Miss Ella Halsey's rendition of Mad Nance was easy, graceful and pleasant, as are all Miss Ella's renditions, her carriage is so fine and her voice so musical. Miss Oonah Rooney was quite the usual pet, admirably sustaining her generally admitted claims to merit. All the characters in Handy Andy were well rendered, in many instances markedly displaying to the critical eye, those delicate shades of improvement by which perfection is arrived at.

After the play of Handy Andy, and the triumphant ovation to the talent of the actors which descended with the curtain, had subsided, the curtain rose again, and Miss Clara Ella Jones appeared upon the stage, and sang the "Quadroon," with melodeon accompaniment by Mrs. W. S. Cooke, and assisted in chorus by Mr. W. S. Cooke, sang it smoothly, and received *very* flattering applause. After which little Cala Molter appeared upon the stage and sang two songs, one with melodeon accompaniment by Mrs. Cooke, and one without, sang them like a little linnet, receiving the heartiest applause of the entire house and a showering of half dollars around and about her, and all over the stage, pitched, tossed and shied at her by almost every one of the audience who had a testimonial of the kind to bestow, which seemed to please the little birdie very much, and who fluttered gleefully about in the silver rain catching the precious drops. After which Mr. W. S. Cooke appeared upon the stage, and sang a song with melodeon accompaniment by his wife, a comic song about a "strawberry marked" lost deary, suggestive of dresses *a la Josephine* or no dresses at all, which brought down the house. Mr. C. T. Dozier then appeared before the curtain and after a few appropriate remarks, proceeded to show "the manner in which the proceeds of the last entertainment were disposed of." This he showed by reading a bill of the Troupe's charities and expenditures, suggestive in the particularization of items of expenditures that a somewhat celebrated family in our midst, themselves, stood in need of a benefit, a little matter which concerns no one but themselves; though it is thought that should they choose to make the matter public they would receive a very substantial benefit.

SEMI-WEKELY ENQUIRER.

SATURDAY, MARCH, 9, 1866.

We notice an advertisement in the San Francisco *Times* calling a meeting of the members of the State Central Committee in San Francisco on the 10th day of April proximo. We hope there may be a general attendance of the members of this committee as there is much to be done, in fact more this year than for several years past. There will be many requirements to be filled by the party before the next election, and we are somewhat of the opinion that a meeting of the State Central Committee should have been before this in order that the several County Committees would be allowed ample time to act upon or carry out the suggestions that may be made. In our own county, especially, the matter of completing the registration of voters is not likely to be consummated, at least so far as the Union voters are concerned, without the countenance and support of the party. Therefore, for the reasons cited, and others, we hope the State Committee will act fully and clearly upon all matters pertaining to party interests, for the good of the party, and not allow considerations of minor importance to exert *any* influence upon their actions.

Sad Accident—Three Men Killed.—We are indebted to Mr. R. Penny, the foreman of the camp that was buried by a snow slide on Saturday morning last, March 2d, for the following particulars of the lamentable occurrence. The camp is a log house situated a short distance east of the large tunnel being run by the Central Pacific Railroad through the summit, and contained at the time of slide fifteen white men. The avalanche took place about half past four o'clock while all in the house were in bed, smashing in the roof and covering the house with snow to a great depth, making prisoners of all within it for from twelve to fourteen hours; the bunks, which were ranged around the walls, protecting all save three of the inmates, who were killed. Mr. Strowbridge was on the ground with a party of men as soon as he got news of the catastrophe, and labored with great energy and determination until he succeeded in liberating the buried party, occupying, as we before stated, from twelve to fourteen hours. Ten of the fifteen were rescued without being injured, two were badly bruised when taken out, but are now doing well, and will probably recover in a short time, and three were killed outright. The following particulars were gathered by our informant from an examination of the papers of the men killed: Thomas Inglis was a Scotchman by birth, being from Peebleshire, and was sixty years of age; he had been ten years in California, and had worked at mining in this county, near Pine Grove, formerly; he came to this State from Pittsburg, Pennsylvania, where he leaves a family. James Duffy came to this State in 1864, and formerly lived and worked in Sacramento; he has a brother and other relatives in Chicago, Illinois—he was about thirty-five years of age. James Neagle was about twenty-five years of age, by birth an Irishman, and came to this State in 1861 from Philadelphia, Pa., where he has relatives. The three bodies were brought down on the railroad on Thursday last, one was buried here and the other two carried below.

A Vindication.—We have received a note from Mr. E. S. Yates, of Colfax, in reply to a charge contained in a letter from our correspondent at that place, in classing one of the members of the Dramatic Troupe at that place as a "Drunken Shoemaker," to which Mr. Y. takes exception, he being the only representative of that trade belonging to the Association and asserts that "no man on the continent had ever seen him unduly under the influence of liquor," and we take pleasure in bearing witness as to the sobriety of Mr. Y. since our acquaintance with him, a period of several years. We think, however, our correspondent had no malicious intention in making the assertion, he, in all probability being entirely unacquainted with him."

Mite Society.—This society held its regular meeting on Tuesday evening last. The attendance was one of the best it has been blessed with during the season, and we are gratified in being able to announce that the receipts were proportionately large, the proceeds being intended to apply to the relief of an indigent family in this place one of whose members had recently died, in fact had not been buried at the time of the meeting of the Society. Since the night in question, we are sorry to say that the mother of the young man has also died, both being buried on Thursday last. Should the money raised not be needed for the specific object for which it was intended it will be devoted to some other charitable purpose.

Toll Road.—Since the contractors have broken ground upon the road from this place to You Bet, some wag posted up the following rates of toll to be charged on the new road:

One Jack	$1 00	One Wheelbarrow	$2 50
" Republican	Free	" Handcart	4 00
" Copperhead	5 00	" Goat	1 00
" Chinaman	6 00	" Hog	25
" Democrat	1 50	" 3 wheel wagon	10 00

T. SCHUBERT, Toll Keeper.

Yesterday morning a Tonsorial operator, of Teutonic persuasion, who admires the workings of "my policy," essayed to go on the road, which he did without hindrance, but on returning the toll keeper accosted him for toll, the barber being a dyed democrat, and demanded the rates, $1 50. The barber replied, "No, I ish no Demokrat; I is a Jack, and pays you for dat!" He probably found his political status without knowing it.

Returned.—We take no little pleasure in announcing the safe arrival of Mr. Chas. Staples, who returndd on Thursday last from a visit to the old folks in the Atlantic States.—Charley says he prefers California and now endeavor to marry and become one of the fixtures of our beautiful village.

Snow at Meadow Lake is reported to be twenty-five feet deep on a level, and at Cisco to be eight feet.

LETTER FROM COLFAX.

Colfax, March 7th, 1867.

Mr. Editor:—Since I last wrote you the earth has made various revolutions upon its axis, but the serenity of Colfax remains undisturbed. The fishing season is not over yet, and Hirmes turtles are still at large.

I notice a writer in the Placer *Herald* of last week—for be it known I am a reader of that delectable sheet—over which I have been pondering for some time. It is difficult to see the drift of the author, whether he intends to attack the railroad or the Chinamen at large.

He reviews the history of the road and grumbles loudly because, from his estimate, the company have such a good thing; then blames them for not permitting San Francisco and other capitalists to gobble up all the stock and leave them out in the cold. He finds no fault with the progress of the road and leaves us in doubt as to whether his San Francisco capitalists would have pushed it forward more rapidly. He then thinks it strange and very wrong that the company should be found in litigation with the county. They are so *very rich*. This is his only reason, and it is indeed a singular one. Forsooth, because they are wealthy they must submit to any indignity that may be heaped upon them, be it even from a popinjay county officer, desirous of distinguishing himself by a Don Quixote tilt against them. He then turns suddenly and abuse them for employing Chinese laborers. Why does he not bring on his white laborers in whom he seems to take such deep interest; does he not know that every man that he can send to the company desiring work, will be employed? does he not know that it was impossible for them to engage a sufficient force of white laborers to push the work ahead with sufficient rapidity and the absolute necessity of the case drove the Company to the employment of Chinamen? How can the employment of Chinamen effect the white laborer when there is any quantity of work before him, open to his hands at any time, not only open but actually begging his acceptance at a better price too than that paid to Chinamen. And because his white laborers refuse, the admitted greatest enterprise of the age must lie quiet or lag behind and be unbuilt for years. When will old fogyism end? Why cannot some people cease their senseless twaddle and learn to look practically at a thing?

WAGON ROAD VS. PLACER HERALD.

The *Herald* also speaks spitefully of Mr. Ruthford's wagon road over the North Fork. It says it will cost $50,000, and attempts to leave the inference that the sum is too great for the proposed benefit. That paper must learn, if it is capable of learning anything, that we have some enterprise and public spirit in this portion of the county, if they have none in Auburn; and if the road cost double that amount it is a fixed fact that it will be completed. The truth is, though, that it will not take half that money to place it in good traveling order, and the grade is a better one than any passing the North Fork. The road is being built and greater progress made than could be expected at this season of the year.

ILLINOISTOWN.

Last week I visited Illinoistown, now a portion of the suburbs of Colfax. Many years had passed since I last saw it, and great was the change. The busy and cheerful throng was gone. The houses sadly fallen to decay; no pleasant sounds, as in times past, showing the abode of a thriving population, was there to greet the passer-by; and save the squealing of the half starved hogs and the chattering of the few lone Chinamen, there was naught to disturb the sound of one's footsteps. Its grandeur and glory is gone and the place added to the long list of towns killed by railroads. Passing through the town, however, you come to some pleasant ranches and places of abode. The "Hamby Ranch," and "Beals' Ranch" stand most prominently forward. Here all kinds of vegetables are raised for the market, and on the latter some novel improvements in agriculture have been made—especially in the culture of cabbage. I was told the secret in confidence, and do not feel at liberty to disclose it. Below Beals, on the river is Rice's bridge. The proprietor is an old pioneer and noted for his old time hospitality. An election precinct was formerly established here, but after the vote on the celebrated Auburn railroad question, the ballot box was deposited in the river where it has remained for safe keeping ever since. The grade of the road is *good*, but in reaching the place the other day I could not help thinking that Selkirk's "perpendicular greased pole" might possibly be an improvement.

MINING NEWS.

I have but little additional mining news to add this week. Walker & Co. are just getting under way and calculate to clean up a good yield this week. The quartz mill is being rushed forward and will be in running order by the 1st of May. The long delayed appearance of the *Fenian Chronicle* is accounted for from the fact that the proprietor has been actively engaged in mining. He has located a quartz claim that runs diagonally across both the Colfax and Rising Sun Companies. It is thought to be rich and it is rumored that he may dispose of his newspaper interest.

Notwithstanding the storms, business in our place is good. A large quantity of goods are sold daily, and most everybody doing well for the season. We have most too many saloons, especially since the organization of the Temperance Societies, but as pay day will soon be round this branch of business confidently calculates upon a rich pan out. Yours,

Occasional.

Personal.—Rev. J. A. Benton, recently the editor of the Sacramento *Bee*, paid our office a visit on yesterday. Mr. Benton visited our town to lecture before the Lycum. He will remain with us until Monday, and preach to the cisizens to-morrow, morning and evening, in the Union church.

Concert.—The teachers and scholars connected with the Union Sunday School in this place will give a vocal and instrumental musical concert at the Union Church on Tuesday evening next, 12th instant.

Some fellow, without being impressed with the Divine injunction relative to the conveying away of such portable articles as red hot stoves, saw mills, mill sites, live grizzly bears, etc., visited Messrs. Greeley & Fulweiler's slaughter-house the other night and walked off with a quarter of beef. John says he don't mind the beef but he would have liked to have had the kidney.

The Nevada Daily *Transcript* has just entered upon its fourteenth volume. Long may it continue its diurnal visits to an appreciative public.

How to Teach the Alphabet.—At a recent school meeting in Boston, Professor Emerson (not Ralph Waldo Brama) had something to say of that which he had seen of teachings in Europe during his travels:

He spoke of what he saw in Dresden. He spoke of teaching the alphabet—of its usually being regarded as a drudgery, which he called a sad mistake. He cited an example of forty boys, seven years old, coming to learn their alphabet. It was taught by a man competent for a College President. He commenced by drawing a fish on the blackboard, and inquiring of the boys, "What is that?"

One answer was, "A fish," another, "It is the picture of a fish," and another, "It is the drawing of a fish." "Right," said the teacher to the last. They were then required to make a nice sentence about the fish. This being done he then placed before them the letters that make the word. They were then required to put the letters together so as to spell the word. This was done; also the making of the letters on their slates, forming the word. They were next required to draw the picture of the fish. This was the method of teaching the alphabet, by no novice, but by a most learned German scholar. This method of thoroughness was everywhere practised in teaching—a little at a time, and constant repitition. "The effect of this method," said he, "was surprising." How unlike is this method to that pursued in our primary schools! The teachers use no books in teaching. Consequently their minds were wholly on the matter of teaching, watching the effect of their teaching upon the children. When their interest tired, their attention was directed to a new subject, and thus the happiest results are produced.

The St. Louis *Republican* says the practice of shoplifting has become so common in that city that every lady who goes shopping is suspected. It warns the ladies to be careful of their motions, and notes the case of one who was arrested and searched recently on the mere suspicion of a clerk. Her husband was so indignant that the clerk, who went to his house to reiterate his apologies, was obliged to defend himself with a revolver.

Cotton Captured.—The report of the Secretary of the Treasury shows the gross amount of the value of cotton captured and condemned to reach the large sum of $29,000,000. By adding sales of other property, gives a total of $34,353,000. The disbursements were $9,310,000: leaving a ballance of 25,000,000 profit to the Government.

It is said that the man who piloted Lee's army into Pennsylvania is now practicing medicine at Masseville, a few miles from Peoria, Illinois.

Religious.—Rev. J. A. Benton, from Sacramento, will officiate at the Union Church morning and evening, at the usual hours.

Rev. P. Y. Cool will officiate at the M. E. Church morning and evening, at the usual hours.

SEMI-WEEKLY ENQUIRER.

You Bet, March 7, 1867.

Mr. Editor:—The storm which has prevailed here with unabated fury for the last two weeks, has finally exhausted itself, and gently sunk to rest. During the last storm we have had a fall of snow of over five feet, and all this great body of snow has been washed away by copious showers of rain. If, after such a storm of snow and rain, the noble city of Sacramento can withstand the flood her enterprising citizens need entertain no fears for her future safety, as this will give her as severe a test as she can ever hope to experience, and all the one-idea croakers will not have a shadow left them to build their pet hope upon that that the "City of the Plains" must sink.

You Bet.

Among other things, I will give you a sketch of our town. You Bet is a thriving little mining town in the south-eastern portion of Nevada county, and is the capital of Little York township, and the banner town in mining resources of the county. It has a population of three hundred brave men, lovely women, and smiling children—the children are small but but good and well-behaved. The business portion of the town is comprised of four stores, two on the Yankee Nation order, two good hotels, four saloons, one livery stable, one blacksmith shop, one barber shop, one boot and shoe shop, one "beer jerker," and, as is customary in all mountain towns, we have a number of Chinese wash-houses to bring up the rear. We have, also, an Armory, used and occupied by the Little York Union Guard, a military company which was organized here, I think, in 1863. This hall is also used for theaters, dancing schools, and all public and private meetings are held in this building. Our morals are not altogether neglected, earnest and devoted Christians are constantly laboring in the good cause, and brother Dow never fails to call his little flock together every Sunday morning at 10 o'clock, to instruct them in the way to do good and become better members of society. Nor is the cause of Temperance overlooked by our considerate people; we have a lodge of Good Templars numbering about seventy-five members in good standing, much to the dissatisfaction of red-nosed, "dilapidated bummers," who are shivering and starving on the corners of our streets, swearing at the impudence of the better class of the citizens in not longer submitting to be taxed that they may secure their regular imbications.

DESPERATE ASSAULT.

The usual tranquility of our town was rather abruptly disturbed on Sunday morning last.—It appears that one Jarrold has a saloon and a few days ago he formed a copartnership with a woman of the fancy order commonly known as a "beer jerker," and it further appears that the green-eyed monster entered their heretofore blissful abode, "demoralizing" the loving couple. On Sunday morning, this man Jarrold, became intoxicated and from the effects of an over stimulant went into the saloon and fired three shots, it is supposed, at the woman. The only damage sustained, however, was, he shot himself through the hand, cutting off two fingers from the left hand. The wound is not dangerous. Jarrold has lived here but a short time, and up to this affair has conducted himself in a becoming and gentlemanly way.

The weather is still cold and chilly, and but little stir anong the miners since the storm; they will doubtless soon start in with renewed vigor and hopes, when it will afford me great pleasure to keep you posted on matters pertaining to mines and mining. Local.

More trouble has occured on the Chenes plantation, in South Carolina. On January 28th, a collision took place, in which Lieutenant Lemmon, of the Freedmen's Bureau, was shot in the arm. He returned the fire and killed a negro. Colonel Sibley proceeded with seventy men to the scene of action, but soon returned with news that all was quiet, although it was deemed necessary to leave a heavy guard to preserve order.

On the 23d instrnt a bill was introduced into the Alabama Legislature which provides that the Court of County Commissioners of each County shall appoint a suitable person to lecture and explain in a plain and simple style to the negro population of his County the Criminal laws of the State.

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.
The report that it relies upon mineral substances for its active properties are wholly false.
The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a poor article cannot be sold as low as a good one, they find some support from parties who do not care what they sell. MUSTANG LINIMENT.
Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.
For cuts, sprains, burns, swellings and caked breasts, the Mexican Mustang Liniment is a certain cure.
For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.
For spavined horses, the poll evil, ringbone and sweeney, the Mexican Mustang Liniment never fails
For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.
Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.
It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.
"In lifting the kettle from the fire, it tipped and scalded me terribly. * * The Mustang Liniment extracted the pain and caused the sore to heal rapidly, and left very little scar.
CHAS. FOSTER, 420 Broad str., Phil.
Mr. S. Litch, of Hide Park, Vt., writes: "My horse was considered worthless, (spavin) but since the use of the Mustang Liniment I have sold him for $150. Your Liniment is doing wonders up here."

Hope for the Afflicted.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. Young, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Medical Advice.—Dr. Wm. K. Doherty's Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

A New and Grand Epoch in Medicine.—Dr Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses on feeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent cures with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoy ant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. All Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that Maggiel's Bilious, Dyspeptic and Diarrhea Pills cure where all others fail. Which for Burns, Scalds, Childblains, Cuts and all abrasions of the skin Maggiel's Salve is infallible. Sold by J. Maggiel, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

MEDICAL.

DR. CHAS. H. TOZER'S

PRIVATE MEDICAL INSTITUTE,

N. E. Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of all Special complaints, formerly of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.

Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forebodings, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females.

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor

My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to affect a cure without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor himself.

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer;—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc., S. S. T.
To Dr. Chas. H. Tozer, San Francisco, Cal.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S

Private Medical and Surgical Institute

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my addres and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L— H—.

San Francisco, June 16, 1864.
Subscibed and sworn to before me, this 21st day of June, A. D. 1864.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptons as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was attacted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

To Females.

K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted. ☞ Consultation at the office FREE. THIS CELEBRATED INSTITUTE

has enjoyed on the coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Connorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and menta organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing off the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose; and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

Sent by Mail or Express, to any part of the State. The GREAT FEMALE MEDICINE! PREVENTIVE POWDERS for MARRIED LADIES. New, Safe and Intallible, lasting from four to six months. Price, $10. French Lunar, or Female Monthly Pills, for suppressions. After fifty years of use these Pills stand unrivalled in efficacy. Price $5 per box.

Patients residing in any part of the State, however distant, who may desire medical advice on their respective cases, and who think proper to submit a written statement of such in preference to holding a personal interview, are assured that their communications will be held most sacred.
